

Expectations:

- Studies blueprints, sketches, drawings, manuals, specifications, or sample part to determine dimensions and tolerances of finished work pieces, sequence of operations, and setup requirements
- Program CNC machines utilizing MasterCam to ensure quality product and help eliminate downtime.
- Writes programs or modifies existing programs in order to achieve efficiencies and quality parts.
- Decide various machining operations and appropriate tooling required to machine a quality product by studying the blueprints. Calculate the time required to machine each product.
- Provide training of operators to continuously improve skill level of machine operators.
- Provide input to continuously improve on productivity, quality (scrap & rework) and achieve OTD goal.
- Evaluate new processes and tools to improve cost effectively machining product(s).

Competencies:

- One or Two year degree with a Minimum of 2 years CNC Programming in a manufacturing facility.
- A Minimum of 10 years of machining experience.
- Strong organization and communication skills are required.
- Strong abilities as a TEAM BUILDER, MOTIVATOR and LEADER are recommended.
- Ability to interface efficiently with production employees.
- Ability to work in a fast paced environment with numerous interruptions.
- Ability to provide strong guidance and direction in the solution of technical problems.
- Must be comfortable with LARGE machinery and other production equipment.
- Ability to identify and navigate through internal and external production bottlenecks.

What you can expect when working here? We are dedicated to giving our employees' **top pay**, and providing them with an excellent benefit package. These benefits include; holiday pay, health insurance, dental and vision insurance. We also provide our team members with a retirement plan and company match. Team members enjoy working in a clean, modern, air conditioned environment with plenty of overtime available.

Programmers looking to become part of our winning team can apply online at www.mvii.com, by emailing your resume' to hr@mvii.com, or apply within.
